

Center for Excellence Field Day

August 9, 2017

The Center for Excellence will be celebrating the 21st season with the summer field day at the Bakerlads and Raymond and Stutzman Farms on Wednesday August 9, 2017. This is a change from the past twenty years where the summer field day was always held on the third Wednesday of August. A Scheduling conflict with another annual field day in the St. Johns area was the motivation to move our date.

The morning program will again start at the Bakerlads Farm in Clayton, Michigan. Concurrent sessions with expert speakers in their field and two trailer rides looking at the latest technology

The afternoon program at the Raymond and Stutzman Farm will be highlighted with a noon speaker with afternoon sessions being dedicated to a trade show for participating vendors and equipment demonstrations dealing with pesticide and fertilizer application.

Below is he schedule for the upcoming event.
